The following 32 pages are a reprinting of the AMS(MOS) 1970 classification scheme that first appeared as a supplement to the index issue of Volume 39 of Mathematical Reviews. Since the middle of 1973 the reviews in the monthly issues of Mathematical Reviews have been arranged in accordance with this scheme (although only the headings that appear in capital letters are printed in the issues), with two exceptions: (i) Sections 96 - 98 of the AMB(MOS) 1970 classification scheme are not being used at all; (ii) Sections 69 through 86 of the classification scheme that last appeared in full in the index issue of Volume 45 of Mathematical Reviews will continue to be used in Mathematical Reviews, instead of Sections 70 through 86 of the AMS(MOS) 1970 classification scheme. These sections are printed immediately after the full AMS(MOS) 1970 classification scheme, in the form in which they have been used

AMS(MOS) 1970 classification solution, during the second half of 1974.

Note that minor revisions are constantly being made in the AMS(MOS) 1970 classification scheme: some of them (and also some minor corrections) have tion scheme.

SUBJECT INDEX

This index is arranged in accordance with the classification scheme described on p. 2613. Only those headings under which there are entries are reproduced below.

References are to review numbers; an Errata Section may be found on pp. 2789 - 2792 below. Russian authors are listed under the transliteration spelling of Russian used by Mathematical Reviews (see table on p. 2793). Surnames consisting of more than one part (e.g., von Rumboldt, de Branges, etc.) are listed under the first capital letter.

Each review is listed under each of the classification numbers that have been assigned to it; secondary classifications are indicated by the review number's being in parentheses. Each review is also listed under each author; only one author is given in each entry but the fact of multiple authorably is indicated by et al. following the name of the author listed. The names of persons associated with a reviewed item in a capacity other than that of author (e.g., editor, translator, subject of a biography, etc.) are given in parentheses. Items without indicated authors are listed alphabetically, in each section, following the items with authors. An asterisk (*) preceding a review number indicates that the item in question is a book.

On page 321, column 4, delete the entry for Maria Teresa Calapso and transfer items 1055, 1064 to a new entry for Maria Teresa Familiari-Calapso. The following authors were omitted from the index and should be added: Allegretto, W.... 625, Cresswell, M.J.... 67, Erbe, L... 625, Freiwald, Ronald C....1136, Jakovlev, N. E....1733, Monov, B. T. . . . 725, Salahatdinov, M. S. . . . 725. MR #77 should be added to the entry for Ceitin, G. S.; Collection of articles honoring the completion by Antoni Zygmund of 50 years of scientific activity, I...1336 should be added to the Key Index; Mathematics and Mechanics, No. 1, Part 1.... *595 should be added to the Key Index and the MR number for the entry for Function theory and NRL Conference on Classical Function Theory, Proceedings should be *505.

#1854: Perčinkova, D.

After the name of the author add [Perčinkova-V'čkova, Danica].

#2371: Leutwiler, Heinz; Schober, Glenn

In line 5 change $f(\overline{\zeta})$ to read $\overline{f(\zeta)}$ twice.

#2715: Valdivia, Manuel

After the name of the author add [Valdivia Ureña, Manuel].

#3099: Banys, J.

In the second sentence replace $\mu_{ijs}(m)$ by $\mu_{ijs}^{(k_1,k_1,k_2)}(m)$. Replace the third sentence by the following: "Suppose that S_n $(n \ge n_0)$ has a bounded density function p_n , $\mu_{ijs}^{(k_1,k_2,k_3)}(0) = \cdots = \mu_{ijs}^{(k_1,k_2,k_3)}(r) = 0$, for any k_i , k_j , k_s $(0 \le k_i + k_j + k_s = m < n)$ and $|\int |x|^r d(F - G)| < \infty$."

#3341: Suliciu, I.; Lee, S. Y.; Ames, W. F.

Between the title and the italic line insert the following: "Collection of articles dedicated to Salomon Bochner."

#3513: Elliott, R. J.; Kalton, N. J.; Markus, L.

After the name of the first author add [Elliott, Robert J.].

#3604: Nomura, Tamiya; Miyakawa, Hiroshi; Imai Hideki; Fukada, Akira

The fourth author's name is incorrect. Replace "Fukada" by "Fukuda".

#3752: Brylawski, Thomas

Delete the last sentence of the review.

#4155: Yousufzai, Afzal Ahmad Khan

The last sentence should read: "The last part could be useful, but it contains numerous errors, gaps, and inconsistencies."

#4760: Laursen, K. B.

In the italic line of the heading change "1973" to "1974".

#6925: Carmichael, Richard D.

 $\mathfrak{D}_{\alpha}{'}$ should be $\mathfrak{O}_{\alpha}{'}$ in the title and throughout the body of the review.

#8155: Entitled {Collection of articles dedicated to Isaac Jacob Schoenberg on his 70th birthday. III}.

The reference to Part IV of this collection should be MR 47 #6405.

#9751: Maxim, L.

In the title change "compatibles" to "compatible".

#10737: Entitled Contributions to Analysis.

In the last article cited, the author's name should be R. O. Wells, Jr.

The classification of the following reviews was misplaced and their MR numbers should be inserted as follows: #10976 between #11004 and #11005, #11035 between #11008 and #11009, #11073 between #11067 and #11068, #11122 between #11133 and #11134, #12539 between #12512 and #12513.
